Positive Comments:

1. need to Correct his opinions :

Indian far right groups initiated to insult maldives seconds after Indian PMs tweet, thats where things started to heat up

even Indian tourists visited Maldives stands higher than any market last year vast majority of them are budget travellers so the contribution still lower than high market countries.

• Laacadive not at all a challenge for Maldives tourism, Maldives doesnt care about what India is hoing to do with those idlands (Polarity: 0.1326190476190476, Subjectivity: 0.6070634920634921)

2. These idiots don't understand that China never try to develop any Muslim country; instead they have only destroyed many Muslim country's economy. Because, only in economically collapsed nations terrorism will grow more and turn against US, India and the western countries. That's why wherever there is scope for terrorism China comes to them and indirectly destroy their economy with debt trap projects and supplying weapons for terrorism 😂 (Polarity: 0.03749999999999999, Subjectivity: 0.5875)

Total Negative Comments: 9
Negative Comments:
1. British should worry about covering stories of their royal family consisting of pedophiles (having s@x with minors), their King who cheated on his then-wife late Princess Diana, and the rest of the racist family, as told by the British King's younger son. BBC's expert had a memory lapse - conveniently forgot to mention that the current Maldives government was elected on the slogan of "India Out" and making crass remarks about India and the leadership. (Polarity: -0.06, Subjectivity: 0.2)
2. Thanka for down sizeing the political agenda of the sitting gov. Of Maldives. And then ppl. Say BBC post unbiest openion 😂 (Polarity: -0.07777777777777779, Subjectivity: 0.1944444444444448)
3. At least the island will stay cleaner for an extended duration. (Polarity: -0.3, Subjectivity: 0.4)
4. Let them have it their way, 60 years down the line when their island sinks, where will they go ? China ? Uyghurs and Maldivians praying together? Hmmm... Or they might think going to middle east.....the same middle-east that denied to take refugees from Gaza !! (Polarity: -0.0638888888888889, Subjectivity: 0.1034722222222223)
5. I just can't understand why everyone in the region hate us? (Polarity: -0.8, Subjectivity: 0.9)
